

Zurich/London, 03-Dec-2014.

The Rt Hon David Davis, Member of Parliament and former British Junior Minister for Public Service and Science, has joined the Board of Directors of MetrioPharm AG.

*“It is a privilege to share our ideas with an experienced business veteran like David Davis” said Dr. Wolfgang Brysch, CSO and President of the Board. “With his combined background in molecular science and strategic corporate management, Mr. Davis will bring further expertise to the company’s board, which will be valuable as we navigate our future growth course.”*

Mr. Davis studied Molecular Science and Computer Science at the University of Warwick and holds a Master’s Degree from London Business School. He also completed the Advanced Management Program at Harvard.

Following a successful business management career at Tate Lyle PLC and the Globe Investment Trust, Mr. Davis has been a Member of Parliament since 1987. In 2010 he chaired The Future of Banking Commission which investigated the causes of the recent banking crisis. David Davis is a respected speaker on the Eurozone crises, banking, security and education and one of the best known politicians in Britain.

Mr. Davis has published various articles on subjects ranging from dividend policy to high-tech capital projects and the use of quantitative techniques in management, as well as the book: How to Turn Round a Company.

## **About the company**

MetrioPharm AG is a pharmaceutical company developing innovative drugs against inflammatory and auto-immune diseases, as well as bacterial and viral infections.

The company has developed the drug platform MP1000 consisting of a family of synthetic small molecular entities with a broad spectrum of anti-inflammatory and anti-infective properties and an excellent safety profile.

Founded in 2006, MetrioPharm AG is headquartered in Zurich, Switzerland, and operates a fully owned German subsidiary in Hennigsdorf/Berlin.
