MetrioPharm Investor Relations News Q1 2019

Greetings from Dr. Wolfgang Brysch, CEO of MetrioPharm AG

Dear shareholders

an important quarter has passed. We have successfully completed the recruitment of our Phase II clinical trial and were able to meet the set target number of patients. The conclusion of the treatment phase is now within reach and we are already preparing the evaluation of the collected data. The coming weeks and months will be busy and we are looking forward to the results for the treatment of psoriasis with MP1032.

Simultaneously, the expansion of our pipeline is progressing and our team is currently working on several new projects. You can find a more detailed report on this topic on our [MetrioPharm Blog](#).

We are glad that you are with us in this exciting phase and on behalf of the entire team I wish you all the best and restful days for the upcoming Easter season.

Yours sincerely
