## MetrioPharm Investor Relations News QIII 2022

### MetrioPharm at BioPharm America in Boston, USA

MetrioPharm's CEO Thomas Christély and MetrioPharm's CSO Dr. Wolfgang Brysch visited BioPharm America in Boston in late September 2022. BioPharm America is a partnering conference where life science innovators partner to fuel the future of drug development. Now in its 15th year, the event was held in-person taking place September 28–29, 2022 as part of Biotech Week Boston. Subsequently the event featured two digital days. The program focused on innovation, partnering, and investing with over 30 sessions, including presentations from emerging companies.

MetrioPharm visited BioPharm America to meet potential pharma partners for planned fixed-dose combination therapies. The goal is to combine drugs of existing standard therapies at lower doses with MP1032 in a single pill to produce novel drugs with improved efficacy and fewer side effects.

Mr. Christély and Dr. Brysch also took the opportunity to introduce MetrioPharm's new corporate deck to potential partners. The new corporate deck gives an overview over the company's next strategic steps and can be found [here](#). Potential pharma partners were also informed about the current status of the company's ongoing Phase II study in COVID-19. The last patient was examined in late July, first top line data will be published in Q4 2022.
